

MONTHLY LIST
of
RUSSIAN ACCESSIONS

Vol. 1, No. 5

AUGUST 1948

THE LIBRARY OF CONGRESS • WASHINGTON

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of publications in the Russian language in and outside the Soviet Union which are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet editions printed in other languages which are spoken in the Soviet Union will also be included.

The LIST consists of two parts: Part A, covering the monographic literature published since 1945; and Part B, listing the contents of Russian periodicals printed since 1947. The material is classified by subject, and is arranged alphabetically within each class. All entries are transliterated according to the system employed by the Library of Congress with the exception that ligatures are omitted. In some cases, however, where periodical entries have been supplied by others, the titles of articles in each issue are translated into English. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that the material is available in another library but not in the Library of Congress. Lists of periodicals received regularly by the cooperating libraries will be published from time to time.

Orders for microfilm or photostat copies of the listed items which are in the collections of the Library of Congress, may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is distributed by the Card Division of the Library of Congress, Washington 25, D. C. The subscription rate is \$2.00 per year.
